# LEGAL MACHINE AND WELDING

It's back to business for Legal Machine and Welding, same location, new shop. On May 25, 2013 fire ripped through the 32 year old business belonging to Ken Evans leaving little more than ashes and rubble. It has been a long nine months during which Ken is thankful he has had the support of family, friends and the community. "Although not all aspects of the business are up and running, we've risen from the ashes and are ready to do business

Before a new shop could even be considered, the massive undertaking of cleaning up the debris, materials, and equipment first had to be tackled. Ken and his wife, Charlene, are both deeply grateful for the time, effort and equipment donated by friends and family during this often daunting task. The fire damaged and destroyed much of the equipment and many of the tools inside the old shop. Financial contributions made by the community at large helped offset some of the cost of replacing many of these items.

Despite the destruction of his shop, Ken still had contracts to finish and customers to serve. Again he found himself thankful for the generous donations of shop space and loaned tools that enabled him to meet his obligations and keep his business going.

The new shop, constructed by Maison Thibault, is easily recognizable by its distinctive red siding. Though the same size as the old shop it is slightly higher with taller doors allowing better access for larger items.

Though the building is new, the business is still the same. With 45 years in the profession, 35 in Alberta, Ken has a wealth of experience to apply to any job. He is capable of designing and fabricating almost any piece of equipment or machinery, or part thereof for any person or business. Large or small, Legal Machine and Welding does cutting, turning, threading, welding, drilling, shaping, milling, grinding, sawing, and tapping to make a raw piece of metal into a usable part for your equipment or project. In addition to this long list of services Ken also offers off sales of steel.

Experiencing the loss of his business could have been devastating for Ken and his family. It was community and determination that helped make the road less rough.

*"We are very grateful for all the support we were given. It is this community support that makes Legal a special place to live and work. I look forward to operating Legal Machine and Welding here for many years to come."*

**Legal Machine and Welding can be contacted by phone at 780-961-3444. Anyone is welcome to come by and see the new shop.**

## TAXES

**PROPERTY TAXES *(For all residents)***

Don't want to come up with one lump sum payment for taxes in August of every year? Why not apply to see if you qualify for the **Tax Installment Payment Plan (TIPP)**. Under TIPP, there are no penalties applied on current taxes unless the monthly payment is not received or not honored. In that case, the tax payer may be removed from TIPP and all penalties would apply.

2015 TIPP Applications will be accepted until the end of February. After that, applications will be held until the following year to get onto TIPP. For more information, call 780-961-3773 or drop by the Town Office at 5021-50 Street.

**IMPORTANT: You are not considered on the Tax Installment Plan without completing the application form every year!**
